WASHINGTON, Sept. 1.—Prevention of the threatened railroad strike thru an act of congress seemed assured tonight, after the house by an overwhelming vote had passed the Adamson 8-hour day law and the senate had agreed to take a final vote on the measure not later than 5 o'clock tomorrow evening.

Believe Senate Will Accept Bill
Altho it is possible that senate amendments may make conferences necessary it generally is believed on both sides of the capitol that when the test comes the house bill as it stands will be accepted and rushed to shadow lawn. N. J., for President Wilson's signature. And while no formal announcements were forthcoming from the employees' brotherhood heads tonight it is authoritatively stated that this will result in immediate despatch of code messages calling off the general strike ordered for Monday morning.

The Adamson bill as passed in the house by a vote of 239 to 56, with minor amendments is the same measure which the brotherhoods leaders officially declared yesterday would constitute a "satisfactory settlement" and prevent the strike. The amendments added to the interstate commerce committee would fix the effective date January 1st, instead of Dec. 1st, 1916, and exempt railroads less than 100 miles long and electric street and interurban lines. Briefly it provides:
That eight hours shall be deemed a day's work and the standard for reckoning compensation of railroad employees operating trains in interstate commerce after January 1st, 1917.
That a commission of the three appointed by President Wilson shall investigate the effects of the 8-hour standard from six to nine months and then report to congress present wages not to be reduced during the investigation or for thirty days thereafter and overtime to be paid at a pro rata rate.
House Debates Bill All Day
It was after a day of hot debate that the house passed the bill, under a special rule brought in when Republican Leader Mann objected to its consideration. Less than half of the Republicans followed their floor leader in the opposition and when the final vote came 70 of them lined up with the majority while only 56 voted against the measure. Just two Democrats, Representatives Steele of Pennsylvania and Black of Texas stood out against the bill and Representative London of New York the only Socialist voted for it.
Red tape was eliminated as far as possible to rush the measure over to the senate, which, after several hours of lively discussion over a bill reported by its interstate commerce committee, had recessed until 8 p'clock.

When the senate reconvened the house legislation was there awaiting action.

The senate committee bill, drafted during a late session last night and another this morning, was the Adamson measure with the same amendments adopted today by the house and an added section empowering the interstate commerce commission to fix the wages of interstate railways employees at the end of proposed period of investigation and thereafter.
At the outset of the night session Senator Newlands sought and obtained consent to put aside the senate bill and take up the one sent over from the house, thereby paving the way for quick final action without parliamentary formalities that otherwise would be necessary. Then Senator Underwood brought up the issue over which the senate is divided by proposing as an amendment the rate-fixing provision of the discarded senate bill.

Debate Amendment Three Hours
Over this amendment debate waged for three hours, Senators Newlands and Underwood advocating it and Senator Cummins making a long speech criticizing the whole proceeding. Most of the senators had little to say and in the cloak rooms there were strong intimations that the reason for this was the general conviction that in the end the house bill would go through without a change. For awhile there was talk of an all night session but early in the evening word was passed that an agreement to adjourn and a vote at a certain hour tomorrow would come before the discussion had gone very far. All thruout the morning President Wilson was in his office in the capitol conferring with administration leaders and aiding in arrangements for putting the legislation thru. He left Washington at 3 o'clock in the afternoon for Long Branch, N. J., where he will be notified formally tomorrow of his nomination for re-election entirely confident that his efforts had averted the industrial catastrophe.

While the house was at work three brotherhood heads at the invitation of Democratic Leader Kitchen occupied the ways and means committee room near the entrance to the house floor and were in constant consultation with the labor spokesmen in the house. They were insistent that the eight hour day provision go thru without any of the arbitration or wage fixing amendments put forward during the debate.

Representative Casey of Pennsylvania was constantly on the go between them and Representative Kitchen and Representative Keating of Colorado, who conducted their fight on the floor. When the vote was taken they obviously were pleased. Their failure to make statements was attributed to fear that anything they might say would have an undesirable effect upon deliberations in the senate.

Crowds Throng Senate Galleries
A great crowd thronged into the senate galleries for the night session. The house was represented by scores of members, including Speaker Clark, who took a seat on the floor near Senator Underwood. The brotherhood heads, less conspicuous than they had been on the house side, did not advertise their presence nor go into the gallery to hear the debate.

In asking unanimous consent to lay aside the senate bill and take up the one sent over from the house, Senator Newlands criticized congress for not responding to the president's demand for legislation which would serve as a protection against a future labor crisis and declared members feared to face the issue because of the political campaign. Senator Thomas also said that congress and not the president was evading the responsibility of meeting a great emergency in a way to make its action permanent in character.

Senator Cummins made a long speech against the house bill. The country was confronted with appalling disaster, he said, and he was not prepared to say that senators should not yield some of their convictions to avert it, tho it was impossible for

HUGHES ADDRESSES KANSAS CITY AUDIENCE

ASSAILS ADMINISTRATION'S POLICY TOWARD SAN DOMINGO AND HAITI

Nominee Again Declares for "Protection of American Rights, American Peace, American Industry," and for a "Business Like Administration."

Kansas City, Sept. 1.—Charles E. Hughes before an audience that filled the great Convention Hall here to its capacity, tonight assailed the administration for its policy toward San Domingo and Haiti while it "professed in violation of treaty rights and the sovereign rights of smaller states."

Mr. Hughes said: "I yield to no one in the respect to the sovereignty of states great or small, for the inviolability of treaties, for rights under international law but when we speak of the inviolability of small states and of their rights what have we to say with respect to the course of the administration in San Domingo and Haiti where today armed rule exists by our marines on the soil of these states."

"We want in this country, professions to match practice. We want deeds to match words and we want a sure policy which will protect the lives of American citizens."

Mr. Hughes again declared for "protection of American rights, American peace, American industry," and for a "business like administration of government." He declared that his program was "constructive, not destructive."

"We are desirous to promote the success of the national ticket," Mr. Hughes said, "but we also desire to have both the senate and the house in order that we have an administration that will achieve results."

Mr. Hughes said he did not believe in putting the government into the shipping business "to compete with private owners."

"We should rescue business from unnecessary conflict of authority in this country. We do not need, simply because we are practicing our local and our national independence, to have irreconcilable conflict of authority. That is a misconception of our constitutional system."

"We want a new loan in our life. I am not one of the kind that is too proud to fight."

The audience contained a sprinkling of grand army veterans. In opening his speech Mr. Hughes referred to the Civil War and the part taken by the veterans in preserving the union.

"No one can tell me," Mr. Hughes said, "that we have lost the spirit of years ago. The same indomitable spirit is with us today and what we need is to harken to its call."

Upon his arrival here Mr. Hughes sent the following telegram to Theodore Roosevelt:

"I heartily congratulate you on your speech at Lewiston and warmly appreciate your effective support."

Mr. Hughes left for St. Louis at 11 p. m.

Mr. Hughes at Topeka today told a crowd that stood thru a shower to listen. He declared that the protection for which he stood was more than protection in a commercial sense to American business, but embraced protection of American rights on land and sea of national peace of American industry and against inefficiency in government.

REPORT GREECE HAS JOINED ENTENTE

Dispatches Reaching London Indicate Country is in a Turmoil

CONSTANTINE ABDICATES

Reports State Crown Prince Has Been Named King With Venizelos in Power

RUSSIANS BEGIN ADVANCE

Unofficial dispatches reaching London, which apparently have been much censored, indicate that Greece has abandoned her neutrality and thrown her lot on the side of the entente allies. Whether Greece has already declared war is problematical as is the nation or nations to whom she has thrown the gauntlet.

It is reported that King Constantine has abdicated and that the Crown Prince has been named as his successor with former Premier Venizelos as the power behind the throne. The British foreign office says it has no confirmation of the king's abdication. An entente fleet of 23 warships and seven transports is reported off Piraeus, the port of Athens. A despatch from Athens says it is probable that the Greek elections, set for October 8th, will be postponed for a fortnight.

The Greek garrisons at Saloniki, at Voden and at Fort Little Karaburun have surrendered to a committee which has taken over the administration of part of Greek Macedonia, according to dispatches from Saloniki. The revolt in Saloniki is confirmed by the British foreign office. Greeks, friendly to the entente, surrounded the barracks of the Greek infantry in Saloniki and are said to have exchanged shots with them. General Sarraill, allied commander at Saloniki, intervened to prevent further bloodshed.

Russian troops have begun another advance and Petrograd reports fighting in Volhynia and in Galicia. The Russians also seized a series of heights in the Carpathians and are moving westward along the Rumanian border of Bukovina. Petrograd claims the capture of 16,000 prisoners.

A withdrawal of the Austro-German lines south of the Zlota-Lipa-Daister section is recorded by Berlin. Progress by the Russians west of Tarnopol is admitted but Russian attacks in the Carpathians and near Lutsk were repulsed, Berlin says.

In Albania, Italian troops advanced along the Vovusa river have occupied Tepeleni.

The Germans report the reoccupation of lost ground near Longueval and Deville wood on the Somme front.

London admits a German advance but says the attackers sustained severe losses. On the rest of the front in France there has been little activity. No fighting is reported in Macedonia and there are no late reports on the operations in Transylvania.

Petrograd claims the repulse of Turkish attacks west of Erzincan and west of Ognott in Turkish Armenia. The rout of more than two divisions of Russians by the Turkish left wing is reported by Constantinople. Prisoners to the number of 5,000 were captured by the Turks.

Ailed Fleet Reaches Piraeus

London, Sept. 1.—After two days of telegraphic silence with Athens, during which sensational rumors of a revolution have gained currency but without confirmation, comes the startling news of the arrival of an entente allied fleet with transports at Piraeus, and that the general Greek elections will likely be postponed for a fortnight.

The brevity of the despatches seems to indicate that something unusual is happening and developments are awaited with the greatest curiosity here.

From fragmentary despatches reaching London it is deduced by some observers that changes of decisive character already have taken place in Athens and that the Greek de facto government has decided to abandon neutrality and align itself on the side of the entente. Others take a more conservative view.

GOLDEN ANNIVERSARY ENCAMPMENT OF GRAND ARMY COMES TO A CLOSE

KANSAS CITY, Mo., Sept. 1.—The golden anniversary encampment of the Grand Army of the Republic came to a close tonight and thousands of veterans are returning to their homes. The last event of the re-union was the annual camp fire of the National association of Union ex-prisoners of war, which was addressed by several of the Grand Army, former officers of the Grand Army. The closing day was marked by the election of officers. William J. Patterson of Pittsburgh was named to succeed Captain Elias R. Monfort of Cincinnati as commander-in-chief. Commander Patterson was a member of the Sixty-Second Pennsylvania Volunteer Infantry and served until the battle of Gettysburg, where he was wounded so seriously that he was invalided home.

OYSTERS ARE IN SEASON

WASHINGTON, D. C., Sept. 1.—"R" is again in the names of the months, so the oyster season is open. According to all reports the succulent bivalves are expected to be good and plentiful this year. This should be a matter of rejoicing for the carefree housewife, for oysters are the only food the price of which has not mounted skyward. Other necessities have been steadily soaring in cost during the last twenty-five years and the war put another burden on the back of the consumer. But oysters are expected to be sold this winter for practically the same price as in the past. The food value of the oyster is exceptionally high. It is digestible, nutritious and whole some, almost as self sufficient as milk. Its value is much increased by cooking, the addition of the necessary starches and fats making it a perfectly balanced food.

DRY DAYS AHEAD FOR OLD DOMINION

Richmond, Va., Sept. 1.—With the beginning of September Dr. J. Sidney Peters, prohibition commissioner of Virginia, expects to complete the organization of his forces and the preparation of his plans for a rigid enforcement of the state prohibition law which is to come into effect sixty days hence. The state commissioner is not the only one, however, who is anticipating the "drought" and making preparations accordingly. Liquor dealers are preparing to close their establishments, while their patrons are stocking up in anticipation of the dry spell. It is expected that the first month or two following the operation of the prohibition laws that there will be much more drinking than ever before, for the stocks that are being stored, it is claimed, will be in the hands of persons who will have a protracted spree until it is all consumed.

Long Branch, Sept. 1.—President Wilson was enthusiastically welcomed to his summer home here when he arrived tonight for the formal notification of his re-nomination tomorrow.

Reception ceremonies were held at Shadow Lawn, the summer white house.

At Philadelphia the president received word that the bill for averting the threatened railroad strike was passed by the senate. A crowd of more than 500 persons was gathered at the station to receive the president on his first real home coming to New Jersey since he entered the white house. Buildings were draped with flags and the entire town was in holiday mood. The special train on which the president made the trip with Mrs. Wilson, Secretary Tumulty and Dr. Cary T. Grayson, the white house physician, arrived shortly before 9 o'clock.

For thirty minutes Mr. and Mrs. Wilson remained on the broad veranda at Shadow Lawn shaking hands with residents.

Everything was in readiness tonight for the notification ceremonies tomorrow.

At one o'clock the president and Mrs. Wilson will give a luncheon for Senator Ollie James and others.

Other members of the notification committee will meet in New York tomorrow and come here together. The formal exercises will be held on the lawn of Mr. Wilson's temporary home, and the president will deliver his speech at 4 o'clock from the veranda. The president plans to leave here tomorrow night for Washington, where he will arrive early Sunday. He will remain there only three hours and then leave for Hodgenville, Ky., to deliver a Lincoln speech Monday.

Plans for President Wilson's speaking trip during the campaign were discussed today at a meeting of the Democratic campaign committee after which it was announced that he probably would make his most important speeches from the porch of his summer home at Long Branch, N. J.

RAILROAD HEADS REVOKE EMBARGO

Executives Are Convinced Congress Will Force Them to Surrender

PROCEED WITH PLANS

Holden States Strike Order Must Be Rescinded Before "We Let Up in Our Precautions"

CLAIM DEFECTIONS OF MEN

CHICAGO, Sept. 1.—Convinced that congress will force them to surrender, presidents of important western railroad tonight ordered rescinding or modifications of the freight embargo established in preparation for a general railway strike. At the same time the railroad executives announced defections from the railway brotherhoods and declared they had enough men to operate trains strike or no strike. This was denied by brotherhood officials.

Hale Holden, president of the C. B. & Q., spokesman for the railroads in the conferences with President Wilson, said the railroads are convinced congress will force thru the eight hour day law before the date set for the strike, but that they are taking no chances.

"It seems tonight that congress will make us surrender," Mr. Holden said, explaining an order by his freight department revoking the embargo. "The Burlington and other roads have felt today there is little chance for a strike now. We are revoking our embargo so as not to inconvenience the shippers at all. But we are going ahead with our plans to operate trains in event of a strike. The strike order must be actually revoked before we let up in our precautions. We have men enough to run our trains."

Modifications of the freight embargo were announced by the Erie, the Rock Island, Chicago and North-western and Minneapolis and Omaha. Other roads were expected to take similar action within a few hours.

While the railroad executives were claiming defection of thousands of brotherhood members, officials of the unions, thru Timothy Shea, vice president of the Brotherhood of Firemen and Enginemen, said the railroads habitually circulate such stories and they have no fears their men would not obey the strike call. Important defections from the ranks of the brotherhoods were reported by the leading railroads and polls of union employees were practically completed and in general the roads said they would be able to count on the loyalty of about 25 percent of their trainmen, even if the strike order is not revoked.

The most startling of the announcements came from the Atchison, Topeka & Santa Fe in a statement that the four brotherhoods—engineers, firemen, conductors and trainmen would hold meetings tonight to request the heads of their unions at Washington to revoke the strike order.

In addition suits for injunctions against calling strikes were filed by individual brotherhood members in various parts of the country, including a number of Santa Fe trainmen employed in Texas.

The first of the National Guardsmen who will be available to preserve order in case of a strike, left Texas for the north during the day.

Chairman Higgins of the General Managers' association of Chicago, issued a statement remarking the dissensions in the brotherhood ranks and stating that preparations to run trains would continue without deviation until formal notice of revocation of the strike mandate was received.

The Minneapolis and St. Louis railroad at Minneapolis stated that engineers of that road would remain at work to a man. President Calvin of to Union Pacific at Omaha announced that all the engineers of that line would remain and he added that a very large percentage of conductors and trainmen would stick. The general manager of the Minneapolis, St. Paul & Sault Ste. Marie road said that assurances of loyalty had been received from 40 percent of the trainmen and that the engineers and firemen of the road did not take the strike vote because of a three years' contract. The Great Northern railway according to a Duluth dispatch sent out a call for new men to report immediately. One thousand conductors of the Chicago and North-western and St. Paul telegraphed President Garretson of the latter brotherhood that they would not walk out if ordered to do so and a delegation of conductors of the Chicago & North-western was en route to Washington to oppose a strike before congress and the brotherhoods.

Ford to Expand Plant

While the public has an idea that there is a good deal that is "phony" about the enormous salaries paid movie stars, they have implicit confidence in the reports issued from time to time of the earnings of the Ford Motor company. The best advertised business in the country is that of the Ford automobile company, for in every part of the U. S. and in many of the foreign countries the name is associated with the lowest priced automobile which has attained success in a large way. The statement for last year's business has just been issued showing the year's profit was \$59,994,118 and that the cash in bank is \$52,130,773. The public will be interested in the further announcement that the great bulk of profits will be used in expanding the company's plant and business.

It has been previously stated that as a part of this expansion program will be the development of a great factory for the making of the Ford tractor which it is claimed will be the lowest priced tractor on the market. The success which has marked Henry Ford's course in a business way has given added interest to this Ford tractor talk, and farmers generally feel perfectly sure that the Ford tractor will come up to announcements and expectations.

Japan's Real Attitude

In the international disturbance which has resulted from the European war which has engulfed almost every country of the old world, the talk of the unfriendly attitude of Japan toward the U. S. has been nearly forgotten. But the subject is again brought to attention thru a protest against any suggestion of this unfriendly attitude written by Dr. S. H. Wainwright, of Tokio, who is the executive secretary of the Christian literary society of Japan. Dr. Wainwright, who was formerly located in St. Louis, and who is known to a great many Illinoisans, writes from first hand information and makes the following unequivocal statement about the feeling Japan has for the U. S.:

"I see the leading Japanese dailies every day. They do not breathe threatnings and slaughter against us. They are very similar to our own daily periodicals. There is no newspaper in Japan, not even the jingoistic Osaka Mainichi, that can be compared in the matter of relentless antagonism to the Hearst organs in the United States."

"The sentiment of distrust and suspicion, for example, has been so widely injected into the American mind with reference to Japan that we find it far more difficult to secure support for mission work in this country notwithstanding the fact that Japan is pre-eminent an American mission field."

Hughes' Labor Record

When Mr. Gompers, remembering only that he is a Democrat and forgetting that he is a leader of organized labor, ventured to assert that Mr. Hughes is unfriendly to labor be-

cause he concurred in the unanimous decision in the Danbury hatters' case he ventured on very thin ice. The Chicago Tribune promptly reminds him that an honest judge must apply the law as he things it is, not as he things it ought to be; and asks him to tell those who look to him for political advice something about the record of Mr. Hughes as Governor. Read what the Legislative Labor News, the official organ of the New York Federation of Labor, said editorially when Mr. Hughes left the Governor's chair at Albany for his place on the supreme court. Here it is:

"Now that Gov. Hughes has retired from politics and ascended to a place on the highest judicial tribunal in the world, the fact can be acknowledged without hurting anybody's political corns that he was the greatest friend of labor laws that ever occupied the Governor's chair at Albany. During his two terms he has signed fifty-six labor laws, including among them the best labor laws ever enacted in this or any state."

"He also urged the enactment of labor laws in his messages to the Legislature, even going so far as to place the demand for a labor law in one of his messages to an extra session of the Legislature."

"Only 162 labor laws have been enacted in this state since its erection in 1777—in 133 years. One third of these, exceeding in quality all of the others, have been enacted and signed during Gov. Hughes' term of three years and nine months."

Let organized labor take to heart what the Chicago Tribune says on this point: "Mr. Hughes is no demagogue and no visionary. He is a man of courage and conscience, and if labor cannot confide its cause to his rock bottom Americanism there is something wrong with its cause."

The Pay of Legislators

The recent comment by Senator Borah upon the lax work done in the average legislature gives point to the generally accepted truth that increase in salary of legislators does not tend to increase the quality. At the last session of the Illinois legislature the members voted to increase their term salaries from \$2,000 to \$3,500. The Galesburg Mail has compiled figures to show that the new salary is the highest paid in any state in the union. Even in New York the law makers are paid \$500 less for the term than the Illinois assemblymen will receive. By comparison with a great many other states the salary fixed in Illinois appears like the rankest extravagance. There would be only one justification for such salary increase—that higher class men were thus induced to seek the office, but this claim has not been proven.

The salaries paid in the various states are as follows:

Alabama, Arizona and Arkansas pay their legislators a per diem at \$1, \$7 and \$6 respectively. California and Colorado pay \$1,000 a term, while Connecticut allows \$300 a term. Delaware, Florida and Georgia allow a per diem of \$5, \$6 and \$4, respectively, while Idaho has a per diem of \$5. Illinois, unless the present law is repealed will pay its legislators \$3,500 a term. Indiana allows a per diem of \$6. DIVERSIFIED FARMING.

The farmers raise so many crops the harvest season never stops. They are always reaping oats or hay, or putting winter wheat away; alfalfa helps to pay their debts and keeps the world in cigarettes, and they have corn and Johnson grass, and sorghum, rape and garden sass. So be the weather dry or wet, some crop will be a good safe bet. The beans may shrivel in the heat, but there'll be divers kinds of wheat; the oats may languish in the rain, but there'll be lots of other grain. The cockleburrs may pine away, but there'll be stacks of lucious hay. The western farmers used to raise but little else than yellow maize, and if a crop they chanced to lose, in winter time they ate their shoes. Crop failure meant a famine then; the fields were full of hungry men. But now the corn may die the death, may wither in the hot wind's breath, and still the farmers tool their cars, and smoke the crimson-band cigars, and take to town the shining bones and buy a peck of precious stones.

DATES IN ILLINOIS HISTORY.

September 2, 1773—A deed was recorded at Kaskaskia by which the chiefs of the Kaskaskia, Cahokia and Peoria Indians conveyed to the Illinois Land Company two tracts of land comprising approximately one-third of the present State.

Farewell Party
Given At Alexander.

A farewell party was given in the Alexander M. E. church parlors Friday night for Rev. J. O. Lehman who is to leave Monday with his family for Ohio. Rev. Mr. Lehman has filled the charge at Alexander one year and has proved himself worthy in every respect. It is with much sorrow and regret that members of his congregation see him leave. The reason for his change is the fact that his mother who lives in Ohio is in very poor health and he wishes to obtain a pastorate where he can be near her. Many members of the congregation were present at the reception held last night and a pleasant evening was spent by all present.

dent.

Funeral services for George Engel-
bach were held Friday afternoon at
2:30 o'clock at the family residence
in Arenzville with the Rev. Bruno
Garcen, pastor of the Lutheran
church, in charge. The large num-
ber gathered to honor the memory of
Mr. Engelbach gave testimony of the
high regard in which the deceased
was held. For many years Mr. Engel-
bach has been closely identified with
the business life of Arenzville and
Cass county. His character as a man
of uprightness and integrity was
well known. He stood high in
church circles and all his mature
life was a staunch member of the
Lutheran church at Arenzville.

At the services Friday music was
furnished by Miss Mary Schaefer,
Miss Lula Schaefer, Mrs. J. M. Swope
J. T. Dressbaugh and Charles Schaefer

made in Arenzville cemetery, with

liam Goebel, John Weeks, Howard

serving as bearers.

At the time of death Mr. Engel-
bach was 56 years, 1 month and 20
days old. In 1875 he entered Illi-

member in Sigma Pi society. He
left college in his junior year and
in 1882 took a position in the bank
at Arenzville. The Mr. Engelbach
has not been known as a seeker of
political preferment, his influence in
the councils of his party has been
considerable. He was a warm
friend of Ex-Governor Yates and was
active in promotion of Mr. Yates'
campaign for the governorship.

Mr. Engelbach was one of a family
of five children the others being Wil-
liam Engelbach, Herman Engelbach,

FIRE AT FRANKLIN.

NEW BUSINESS COMING TO JACKSONVILLE

ELI BRIDGE COMPANY TO RE-
MOVE TO THIS CITY.

Plant Established At Roodhouse Has
Had Steady Growth—Enlarged
Quarters Needed and Chamber of
Commerce Office Is Approved—
Employees 25 or More Men.

That Jacksonville is to have a new
and important business enterprise is
now a practically settled fact, un-
less something entirely unforeseen
happens the Eli Bridge company of
Roodhouse will at no distant date re-
move its plant to this city and en-
large its business. For some time
the project to bring the plant here
has been under consideration, the
secretary and promotion committee
of the Jacksonville chamber of com-
merce having taken the initiative in
the matter. The Eli Bridge company
makes a specialty of manufacturing
Ferris wheels, but some other steel
products are also turned out from
the Roodhouse plant. Employment
is constantly given to from 25 to 40
men. The company is desirous of
locating here because of the addi-
tional shipping facilities and be-
cause of certain other advantages. At
a recent meeting the directors of the
company voted in favor of removal
to this city. It was then necessary
to give formal notice in the Rood-
house papers of the intended action
and a meeting of the stockholders of
the company will be held in Rood-
house Sept. 23. Definite assurance
has been given that a majority of the
stockholders will ratify the action al-
ready taken.

W. E. Sullivan is the president of
the company and has been in active
charge of the work. The plant which
was established some years ago, has
grown in a gratifying way and it is
with the desire for further expansion
that the officers of the company de-
cided on the proposed change of lo-
cation. The Chamber of Commerce
representatives who have acted in
the matter have kept steadily after
the project, recognizing the value of
an institution of this kind which
will give steady employment to a
large number of men, with the pros-
pect of a speedy growth.

As already indicated, Mr. Sulli-
van and others connected with the en-
terprise are reliable, energetic busi-
ness men and they and their families
will prove very desirable additions to
the citizenship of Jacksonville. The
Chamber of Commerce is certainly to
be commended for the activity and
interest shown in securing this busi-
ness enterprise.

COMPLIMENTS FOR MR. REEVE.

The Illinois Weekly Pythian, pub-
lished by the Knights of Pythias
Athletic association in Chicago, gives
an extended account of the recent
banquet for Hon. John J. Brown in
Chicago. Incidentally a complemen-
tary notice is made of the excellent
speech delivered by John J. Reeve of
this city. The paper said, "Grand
Vice Chancellor John J. Reeve, our
next grand chancellor, who by the
way is a speaker with wide reputa-
tion, on this occasion instilled great
enthusiasm into the Pythians of Illi-
nois. After recuperating from a re-
cent illness Mr. Reeve came from
Jacksonville to wish the supreme
chancellor the best success. From
his timely and well chosen remarks
one fact stands out very plainly,
John J. Brown as supreme chancellor
and John J. Reeve as grand chan-
cellor spell unprecedented success for
Pythianism in the domain of Illi-
nois. Already unusual activity may
be seen and under John J. Reeve Il-
linois will without doubt give our
supreme chancellor the support to
which he is rightfully entitled. One
could listen for hours to such a talk
as Mr. Reeve gave. We have learn-
ed to love you, Brother Reeve, with-
out any effort on our part."

Mr. and Mrs. Christopher Marek
have returned to their home in
Springfield, Neb., after a visit with
Mr. and Mrs. John Haiber, 310 West
College street. Springfield is eight-
een miles south of Omaha. Crop
conditions are reported good as that
section of Nebraska escaped the pro-
longed drought, so general in the mid-
dle western states. The wheat yield
will be thirty bushels and above.

Mrs. Kate Mahaney, mother of
Mrs. Haiber, has completed a visit
here and returned to her home in
Monroe City, Mo. Mrs. Marek is
Mrs. Haiber's aunt.

MRS. WILSON IN CHARGE OF

CHRISTIAN CHURCH MUSIC
Mrs. Genevieve Clark Wilson, who
recently completed her vacation and
returned to the city, has charge of
the music at Central Christian church
for the year ensuing and already has
plans under way for a number of
special features. Mrs. Wilson will
arrange for solo, duet, quartet, as
well as chorus numbers, and some of
the best musical talent of the city
will be heard from time to time.

LEAVE FOR KANKAKEE.

Mr. and Mrs. F. J. Howells and
children will leave today in their au-
tomobile for Springfield and after
spending a day there will go to their
new home at Kankakee. Mr. Howells
will at once enter upon the duties
of district manager for the Central
Union Telephone company there, the
position to which he was appointed a
few days since.

PREVENTION OF STRIKE BY CONGRESS SEEMS ASSURED

(Continued from page one.)

him to believe the problem should be
solved in the way proposed. He de-
clared in his opinion the amendment
of Senator Underwood would abso-
lutely destroy the object of the bill
and he doubted if it would be satis-
factory to the brotherhood leaders.
The Iowa senator said he believed
the four brotherhood chiefs were in-
telligent and patriotic men who
would do only what they considered
their duty.

"I acquit them," he added, "of
any motive of coercing congress in
the slightest possible degree."
Denies Senate Has Freedom
Senator Borah interrupted to deny
that the senate had any freedom of
action in the matter.

"I say," he asserted, "that we are
threatened with a national calamity
and are asked to legislate, but are not
given an opportunity to determine
whether or not we are legislating
right. These men in effect have said
to us, 'we determine that you legis-
late or we will bring that calamity
on the country.'"

"I do not defend their declara-
tion of a strike," said Senator Cum-
mings, in reply, "and they must take
the consequences of that. I think
they should have postponed that un-
til a fair investigation could be made.
They chose not to do so, but they
have not asked congress for legisla-
tion. They have not attempted to
direct this legislation."

"I leave it to his Democratic
friends to eulogize what they believe
to be the president's courage. At
any rate he made a proposal, the
railroad men accepted it and the
brotherhoods rejected it. Then the
order for the strike which I
think has stricken organized labor
the most serious blow it ever receiv-
ed. But the president having failed
in mediation came to congress. I
am not criticising him for that. I
think he came in a proper way. I
think he ought to have come. He
recommended a program which was
perfectly understandable. He may
have been courageous. I am not in-
clined to rob him of the credit, but
he must remember that one of the
propositions of the president pleased
the brotherhoods and the other pleas-
ed the railroads."

Taking up the bill in detail Sen-
ator Cummings said the first provision
in it meant nothing for the train-
men so far as hours are concerned
because overtime work is not paid
at higher rates than work up to eight
hours. He characterized the measure
as being the "brassiest" kind of gold
brick.

Newlands Proposes Adjournment

As soon as Senator Cummings
concluded, Senator Newlands proposed
adjournment with the agreement to
vote and promptly was given unani-
mous consent ending the session.

In the house all the amendments
except those advocated by the party
leaders were rejected. One by Repre-
sentative Clark of Florida, to ex-
tend the operation of the eight hour
law to all employees of railroads was
defeated 120 to 81 after Mr. Clark
had vehemently declared he would
surrender his seat in congress rather
than stultify himself by voting for
the bill without the change.

Mr. Clark did not answer when the
roll was called for the final vote.

States Wilson Wavered

Representative Mann told the
house he believed he could have vot-
ed for the president's whole pro-
gramme as recommended to con-
gress. "But," he added, "the presi-
dent as he always has in the con-
duct of the country's affairs, wavered
and wavered when he had real
questions before him. Bold as he
was in asserting his views before
congress a day or two ago, he now
backs water, as shown from his ten
program and now urges congress to
pass a bill which leaves out most of
the essential things which he then
proposed."

Representative Adamson, of Geor-
gia, author of the bill, admitted it
was hasty legislation to meet an
emergency.

While the brotherhood heads care-
fully refrained tonight from express-
ing publicly any opinion of the Un-
derwood wage fixing amendment, it
is known that they strongly oppose
it and are confident that it never
will become law. On the other hand,
many members of the house and sen-
ate are confident that even tho the
Underwood amendment should pass
just so the eight hour day provi-
sion goes thru there will be no strike.
It is generally believed that the mes-
sage calling off the strike will go out
tomorrow night immediately con-
gress acts without waiting for the
bill to reach the president.

Representative Adamson announc-
ed emphatically that if a conference
became necessary the house conferees
never would agree to the Underwood
amendment and the senate would be
forced in the end to accept his bill
unchanged.

MR. PONTIUS RETURNS.

cation sojourn in Indiana. They

tives and later visited northeastern

Christian church Sunday.

RAILROAD HEADS REVOKE EMBARGO

(Continued from page one.)

ville & Nashville conductors obtained
an injunction to restrain calling of a
strike on that railroad asserting
that the conductors of the road vot-
ed against it and that to strike would
be contrary to public policy.

H. E. Bryam, vice president of the
Burlington road, stated that approx-
imately 25 percent of brotherhood
members employed on that road had
given promises of remaining at work.
Vice President W. L. Park of the Il-
linois Central said that he was re-
luctant to make an estimate as to
his road. All but two of the 43
crews of Chicago suburban passen-
ger trains had promised to stick to
their posts, he admitted, but said he
did not know what the proportion
would be on regular passenger and
freight runs.

"The number of applications of
new men, however, is imposing," said
Mr. Park. "I refer particularly to
engineers."

President Bierd of the Chicago &
Alton said that a very careful canvass
of his road had been made and that
the "response was very encouraging."

W. G. Jackson, receiver for the
Chicago & Eastern Illinois remark-
ed this line runs thru highly union-
ized territory and that probably nine-
ty or ninety-five percent of the union
men would obey the strike order.

"But lots of new men are apply-
ing," he said.

General Manager Gordon of the
Chicago Great Western stated that
20 percent of his train crews would
remain.

"A large number," would remain
with the Chicago, Rock Island & Pa-
cific, it was stated at the headquar-
ters of that road. President Kurrie
of the Monon gave the situation on
his road as follows:

"Twenty-five percent of our train-
men have absolutely promised to
stick to their posts, but they know it
is not their duty to do so. Another 25
percent say they will remain, but they
don't want to get into trouble with the
brotherhoods until it is certain that a strike
will be called."

T. A. Gregg, vice president of the
Order of Railway Conductors, said
that he had not been informed of
any disloyalty among the men. Mr.
Gregg was in secret conference all
afternoon with Timothy Shea, vice
president of the brotherhood of loco-
motive firemen and engineers.

Railway heads held two meetings.
The executive committee of the gen-
eral managers' association met alone
and later held a meeting with the
president and other high officials.
The formal statement issued by the
managers tonight states that there is
"widespread and growing disaffec-
tion among the train employees who
have been ordered to strike."

THE CHICAGO EXCURSION.

The Chicago excursion on the Wa-

attended on Thursday night but last
night not so well. Thursday night
155 tickets were sold, but fear of
the strike apparently reduced the
number to nineteen last night. The

carried approximately fifty passen-
gers.

THE MAN FROM THE COUNTRY

The Next Best
Thing

With less than half the Re-
publican vote that Sangamon
has, and two candidates to
divide that vote, Morgan's
chances to secure a member of
the house of representatives
is very slim indeed.

The next best thing is to
elect "THE MAN FROM THE
COUNTRY." Mr. I. S. Dunn,
of Everson, formerly of Morgan
county. He is heartily in
favor of an amendment to the
constitution dividing senatorial
districts into three dis-
tinct representative districts;
he is for a state-wide vote on
the liquor question; for fair
labor laws; and if elected will
faithfully represent the people
of Morgan county as well as those
of Sangamon.

MR. RUSSEL FAVORS SUPERVISION FOR PRIVATE BANKS

If Elected Auditor He Will Appoint Experienced Man as Head of Banking Department.

Springfield, Ill., Sept. 1.—State supervision of private banks will come without difficulty when the fear of impartiality by the banking department is removed, Andrew Russel declares. The present banking law does not provide for the naming of expert or disinterested men as head of the banking department and as bank examiners. For this reason the honest private banks oppose regulation and the dishonest ones take advantage of the situation.

As a candidate for the Republican nomination for auditor, he has announced a definite program which he believes will eventually result in the removal of practically all opposition to state control.

"Opposition which in the past has defeated statewide bank supervision has not come from the weak private banks for they have no influence," Mr. Russel said today. "It has come from the strong private banks, conscious of their power, of the soundest financial condition. If the state banking department could be rebuilt and systematized, so that there could be no suspicion of mismanagement attached to it, most of the opposition shown by the private bankers would at once disappear. With this situation cleared up there would be no difficulty and little delay in extending the benefits of supervision and inspection to all banking in the state.

"Under the present law, the auditor has full jurisdiction over state banks thru the banking department. He may appoint whom he pleases head of the department without regard to qualifications.

"It is obvious therefore, that if the auditor were under the influence of certain interests, he might name a man financially allied with those interests as head of the department. Under such circumstances, the power of the department could be used to secure the financial secrets of banks competing with these interests. The bank examiners could be used improperly to harass and injure.

"This danger may be remote, but it is real enough to make many conservative bankers hesitate before submitting to its uncertainties, and it is largely responsible for the opposition to extension of supervision.

"I know the honest private banker and he's as anxious to have the get-rich-quick impostor put out of business and kept out as any banker is. Given acceptable conditions and assured of fair treatment the Illinois private banker will welcome supervision.

"I wish to state again that I always have favored a separate banking department, similar to the insurance department. I will if elected auditor, appoint as head of the banking department a skilled banker of not less than five years banking experience. The examiners will be similarly qualified. Appointees to that department should sever all connection with banks, either as shareholder or as employee. This is vital if the office is to be made stable, sound and efficient. In this way great improvement can be made at once. When the new law is passed it should specify all these requirements and forever remove the office from political or factional domination. If banking is to be sound and above suspicion the supervision must be equally so. No evasion should be possible to the appointing power."

to be the major league shutout re-
cord at 13 each, Coombs making his
mark in 1910 and Alexander this
year, opposed each other in the first
game and the Philadelphia star pushed

**CHURCH DEFEATS McLOUGHLIN IN
FOURTH ROUND OF TENNIS TOURNEY**

FOREST HILLS, N. Y., Sept. 1.—
The defeat of Maurice E. McLoughlin
the idol of American lawn tennis, by
George M. Church was the feature
of the fourth round of the National
singles championship tournament at
the West Side Club today. The elimi-
nation of the California comet in
his widely heralded attempt to come
back after two years of defeat left
but three westerners in the field for
the 1916 title as against four east-
ern stars and one southerner.

George M. Church tonight was the
hope of the eastern contingent and
the west pinned its faith on the abil-
ity of William M. Johnston, victor
a year ago altho it is conceded that
of the remaining eight players in
the tournament, R. Norris Wil-
liams, II., and Clarence J. Griffin had
a chance.

WHITE REDUCES WORKOUT
Colorado Springs, Colo., Sept. 1.—
Challenger Charley White who will
try to wrest the lightweight crown
from Freddie Welsh next Monday af-
ternoon in a scheduled 20-round bout
reduced his workout today by one
half. He boxed only four rounds.
Welsh took up his usual full quota
of work with the punching bag and
his sparring partners, but the latter
were instructed to take things easy
and the champion merely danced
thru the rounds, practicing his foot
work.

James Wilson of Nortonville was
among the business men of the city
yesterday.

NERVOUSNESS ON PART OF TRADERS

Turns Wheat Market Downgrade

Close is Unsettled 1½ to 2½ Cents Net Lower—Corn Prices are Hit Hard in the First Hour.

Chicago, Sept. 1.—Nervousness on the part of many traders that some hitch in congress would prevent a settlement of the railway strike turned the wheat market today down grade. Largely in consequence, the close was unsettled 1½ to 2½ net lower with Sept. at \$1.43½, and December at \$1.43½ to \$1.44½. Corn finished ¼ to ½ down, oats ½ to ¾ off to ¾ up and provisions varying from 45¢ to 47¢ decline to a rise of 7½c.

Word that a large export business had been done at the seaboard helped the wheat market to recover a little just at the close. Corn prices were hit hard during the first hour. Oats were governed chiefly by the action of other cereals. Provisions finally gave way under the influence of a sharp decline in the holding market. The chief setback was in pork.

BUSINESS MAKES FURTHER HEADWAY DESPITE THREATENED RAIL STRIKE

New Projects in Most Instances are Undertaken with Sustained Confidence.

New York, Sept. 1.—Dun's Review tomorrow will say:

"Embargoes on freight shipments and some cancellations of contracts because of uncertainties as to deliveries, due to the threatened transportation tieup, characterized the situation during the week. Yet, in spite of these conditions business made further substantial headway, raw projects in most instances being undertaken with sustained confidence. Current buying continues noteworthy. Prices in leading lines tend upward steadily, but, while the high costs naturally cause some hesitancy, consumption is not lessened precipitately. In one important industry purchasing has broadened appreciably, following a temporary lull and producing and distributing facilities remain inadequate to meet the expanding requirements. With transactions surpassing those of any other year, much more business might be done were it not for the scarcity of materials and shortage of labor, which prevent manufacturers from accepting all the contracts offered. Weekly bank clearings, \$3,745,141,257."

NOTICE.

On and after Sept. 1, my business will be on a strictly cash basis. C. N. Priest, The Ford Man.

NEW BOOKS AT THE PUBLIC LIBRARY

The following list of books will be ready for circulation Saturday morning, Sept. 2, 1916:

Literature

Burroughs—Under the Apple-trees. "Our little plans and wants are specific, individual, but our activities are hemmed in by general laws which work to no special end. We row and steam against the currents and against the winds; we check or thwart or control the natural forces; this life opposed to gravity. Thus we are a part of that from which we seek to detach ourselves, and are kept going by the force we seek to overcome." From "Life the Traveler" in this book which presents the ripest fruit of its author's thought on some of the modern problems of science and philosophy.

Philippine Public Schools—Programs for Special Days. Gift.

Shaw—Androcles and the Lion. This volume also contains Overruled and Pygmalion. Androcles and the Lion and Pygmalion are so well known in America that little needs to be said about them except that the inevitable preface to each is available. The preface to the first play "Why not give Christianity a trial?" is original and Mr. Shaw evidently does not despair of the application of Christianity to politics.

Winans—Public Speaking. A book planned to help a man think on his feet and talk directly to a small or large group, to improve his voice, bearing and action, to find material and to analyze and assimilate it, to do original thinking and control his emotions, to interest audiences in topics they think dull and to overcome inertia and prejudices and move men to action.

Social Relations

Annals of the American Academy—America's interests after the European war.

Borwison—History of the Illinois Central Railroad to 1870. Gift.

Kennan—Misrepresentation in Railroad Affairs. Gift.

Noble—The New York Stock Exchange in the Crisis of 1914. Gift.

Stoner—Natural Education. The author tells in simple direct manner how she educated her daughter up to her tenth year.

Useful Arts

Jameson—Model Health Code for Texas Cities. "The word 'model' is employed in the sense of an artist's model, that is a pattern to be worked after, and to be improved upon. These ordinances have been collected from far and wide and represent the thoughts of many minds."—Preface.

Muller—Industrial Fiber Plants of the Philippines. Gift.

Handbook of industrial plants from the Philippines in Common Use. Gift.

University of Illinois—Soil Reports.

Panama Pacific Exposition

Illinois Commission—Report. Gift.

Legacy of the Exposition. Gift.

Regular Fiction

Parrish—My Lady of the South. Porter—Cabbages and Kings. A book to laugh over heartily. The South American republics and their habit of revolutionizing furnish the author humorous material of which he takes good advantage. O. Henry has the faculty of making ludicrous situations laughably real.

Rent Fiction

Cleghorn—The Spinster. Dwight—Stamboul Nights. "Photographic in their realism, yet subtly interpretative of the oriental people."—Independent.

Nicholsen—Proof of the Padding.

ARNOLD.

Mr. and Mrs. Fred Hagen and children spent part of last week in Bloomington.

Mr. and Mrs. Alfred Davenport moved from the Scholfield farm to South Clay avenue, Jacksonville, last week.

Our school will open Monday, September 4.

WHERE? At Brooklyn church—Fried chicken supper. Plenty good things to eat. Tuesday, Sept. 5, from 5 to 8 p. m.

A VETERAN GONE.

Captain J. H. Walling of Baylis died recently aged nearly eighty years. He fought in the civil war and was a seaman on the noted Merimac in the early part of the struggle. He was highly esteemed in the place in which he lived. A few years ago he attended in New York a reunion of the survivors of the Merimac crew.

CHAUTAUQUA AT WHITE HALL MADE PERMANENT INSTITUTION

Success of First Annual Event Exceeds Expectations of the Management—Other White Hall News.

White Hall, Ill., Sept. 1.—The first annual White Hall Chautauqua has scored a success far beyond the most sanguine expectations of the promoters, according to a canvass of the situation made Thursday morning at a meeting of the directors. The chautauqua closed Sunday night, after being in session five days. It was held in the beautiful grove on Gregory Farm, immediately west of the soldiers' monument, and every idea that could contribute to its success, and for which there was time to carry out at the first event of the kind, was given all the attention that the limited time warranted, and little was left undone in this respect, because behind the enterprise there was a small army of indefatigable workers who stopped at nothing short of what should be accomplished for the greater success of the chautauqua that time and labor would permit. Every session brought an increasing attendance from all over this section of the state, and by Sunday night the attendance had exceeded all bounds, concluding the week of high class entertainment and sociability in "a blaze of glory."

Thus the White Hall chautauqua has become what is universally declared to be a permanent institution. It was launched by the White Hall Brotherhood, and such solid growth has the chautauqua taken in its first year that the Brotherhood was divorced from the chautauqua at a meeting held in the Princess Theatre Wednesday afternoon, and the chautauqua will henceforth "paddle its own canoe." That it will be able to do so successfully is indicated by the sale of season tickets for next year, one thousand in number, double the number of guarantors' tickets that were sold for this year. This means that the plans for next year will take on an enlarged scope. It is the plan to double the size of the program tent used this year. Another idea is to employ a band to fill in during the time that the program is in progress, and this will be a welcome innovation to campers.

Numerous favorable comments were heard on the White Hall soldiers' monument enterprise that is in plain view of the chautauqua. The grounds were not up to the coming standard, and no funds were on hand for any special work in putting them in temporary condition, but Lee Wilkinson took it upon himself to do this work voluntarily. He put in several dollars worth of labor for appearance during chautauqua week, and with Old Glory floating in the breeze, there was an added patriotism and welcome. The public should always bear in mind what Mr. Wilkinson is doing without compensation.

Directors Held Meeting
A meeting of the directors was held Thursday morning, and the number of directors was increased from nine to fifteen, the new directorate being as follows: Arthur F. Ewert, M. B. Ross, John A. Simpson, Alonzo Ellis, Louis Lowenstein, T. N. Rose, J. H. Fox, J. C. Spencer, H. O. Tunison, Frank Wanderheyden, E. W. Lorton, W. H. Helm, C. E. Potts, W. S. Corsa, H. W. Shirley. The directors will elect officers at a later date. A financial statement is in course of preparation, and will be issued in a short time. The gate receipts for the Sunday session alone were \$350.00, the total for the five days running in the neighborhood of \$1000, leaving about \$250.00 net balance.

Democratic Club Formed
A local democratic club was organized Wednesday night at a meeting held in the M. W. A. Hall, and a few more than thirty were present. J. H. Winters was elected president, Frank Bridgewater vice president, Dr. F. N. McLaren secretary and Wm. Callans treasurer. Addresses were made by Rev. E. L. Wendell, J. C. Bowman, Adrian Edwards, W. H. Helm, and H. E. Bell. Rev. Wendell told why he left the democratic party in 1907, and delivered one of his characteristic addresses that greatly enthused his hearers.

Republicans!

Chicago's Factions Threaten Now to Destroy Your Party

Greedy Chicago bosses, selfish misuse of party organization and violent factionalism imperil the Republican Party in Illinois.

Lowden represents the Lundin-Thompson effort to extend the Chicago "City Hall" blight over the entire state.

Hull was picked by West and Deneen to finance their Cook County machine for another era of factionalism. A vote for him is a vote for Lowden.

The only faction-free Republican candidate for Governor is **Frank L. Smith** of Dwight. He bears no Owners' Association brand. He is the only **real** down state candidate. Both of his opponents are from Chicago, which has already had the governorship 12 years.

Smith is neither boss-ridden nor a machine rider. He fights for party success and good government, not for factional advantage or personal spoils.

Smith is a successful business man, a true Republican, a dependable leader. And there isn't a tainted dollar in his personal or political bank account.

Smith, and Smith only, can unite all factions and lead to certain victory. Measured by **any** standard, he is the only Republican candidate for Governor who has a **RIGHT** to run with Hughes.

Citizens of Illinois, Smith's fight for the Republican party and Good Government is your fight. Will you help?

FOR THE HONOR OF ILLINOIS, go to the polls on Wednesday, Sept. 13, vote for **Frank L. Smith** and save the party from blatant bosses and greedy factions.

COLORED VOTERS LISTENED
TO FIVE ADDRESSES

Mass Meeting Held at Court House Friday Night—Hughes and Lowden Slogan of Eloquent Speakers Mr. Russell Titled Friend of the Race.

It was an enthusiastic meeting of colored voters which was held at the court house Friday night. Several speakers were present from Chicago and all the addresses dwelt upon the record of the Republican party in championing the cause of the colored people. The splendid characteristics of Charles E. Hughes as president were pointed out and the fitness of Colonel Lowden for the governorship was emphasized.

Good words were also spoken for Andrew Russell, candidate for auditor; Richard Barr, candidate for attorney general and Len Small candidate for treasurer. Edward Mallory was the chairman of the meeting and W. H. Parrish secretary. Paul Samuel and Carl E. Robinson, both local candidates for state's attorney, on the Republican ticket, were the first to speak and occupied only a few moments.

Then Rev. E. L. Scruggs of Jacksonville, told the audience why they should support Andrew Russell as state auditor. He declared that a study of Mr. Russell's record proved that he was a friend of the colored people and believed in giving them proper political recognition. The speaker said that colored people should not sell their support to any man for the payment of a few dollars but should give aid to those candidates whose records or pledges made certain that they will give to the colored people the political consideration to which they are entitled.

Former Pastor Here Made Address. Rev. Mr. McCracken of Chicago, former pastor of Bethel church here, and subsequently a presiding elder in the district, traced the history of the Republican party and paid tribute to the career of Charles E. Hughes, Republican nominee for the presidency. The speaker referred to Colonel Lowden as a man whose record has proved his friendship for the colored people and said that he was a man of such honesty and ability that his election in Illinois would be for the best interests of all the people at large.

J. A. Cotter, a Chicago attorney, was the next to speak and presented facts to show how the Wilson administration has continually discriminated against colored people. To show that this action was natural Mr. Cotter gave the names of southern Democrats who are occupying positions of prominence and influence on senate and house committees. "The candidacy of Mr. Lowden for the governorship," the speaker said, "is the result of the wishes of the people. He would not be a candidate, even when asked by a large company of prominent politicians in the north part of the state, until petitions had been circulated and more than three hundred thousand voters joined in the request that he be a candidate. This farmer, lawyer, able leader and honest man represents best ideals in politics and his election to the governorship will mean a high class business administration. He has in private and public life shown himself a friend of the colored people and deserves their support at the polls."

The last speaker of the evening was Dr. A. J. Carey of Chicago. The speaker said owing to the lateness of the hour and all of the splendid speeches that had been made he would not detain his hearers with extended remarks.

He then launched into a splendid exposition of the principles of the Republican party and its candidates. Dr. Carey is an eloquent speaker and he held the undivided attention of his audience and was frequently interrupted with applause.

Lowden Lauded. "The Republican party," said Dr. Carey, "has so many great men that it does not have to feel around to find them. But of all of the candidates running for state office the greatest is Frank O. Lowden candidate for governor."

At this point the speaker paid a tribute to some of Jacksonville's colored citizens. He mentioned the Mallory Bros., and Dr. A. H. Kennebrew. The speaker said that Dr. Kennebrew was regarded as a great physician by all people, white and black.

In paying his respects to the administration, Dr. Carey said that President Wilson would write notes to the Kaiser and King George and tell them if they did not respect American rights he would write them another note. "The same policy," the speaker said, "had been carried out in Mexico."

The speaker also spoke of former governor Charles S. Deneen. If told his auditors, "Deneen will be the de facto governor of Illinois."

Negro Race Achievements. In speaking of the achievements of his race in the country's history he paid a splendid tribute to the soldiers of the war of the rebellion and to Crispus Attucks the war and who was in the Revolutionary war and who was a colored man. He also told of the colored members of the 10th Cavalry who lost their lives in Mexico and of the fact that the Eighth regiment, colored, of Illinois, was the first one on the Mexican border after the call of the president for troops.

"Black men," said Dr. Carey, "do not start strikes. You never heard of a black man assassinating a president. Never in our history have you heard of a nihilist among the members of our race."

In closing the speaker said that, "under the leadership of that great man, Frank O. Lowden, who would carry the colors of the republican hosts against the Democratic citadel at Springfield in November it would fall. Then we will have a Republican governor, you will have a Republican auditor from Morgan county, Republican representatives will be elected from Morgan county and from every other district in the state. In Washington we will have a Republican president and the members of congress from Illinois will be Republicans."

LOCAL CAR SHOPS WILL
CLOSE DOWN TONIGHT

Similar Orders Have Been Issued for Shops of Other Railroads.

George W. Imgrund, superintendent of the local C. P. & St. L. shops, has received notice from W. C. Hurst general manager to close down the local shops. The order has already been posted and will become effective Sunday evening, which means that the men will cease work this evening.

When asked last night as to the cause Mr. Imgrund would only say that the order was issued in anticipation of the general strike of railroad trainmen. As is the case with nearly every other road the C. P. & St. L. has not stored any coal and if the strike comes it would be necessary to close down for lack of fuel to operate the plant.

The order will throw about 150 men here out of work and is indefinite. After Sunday the only employe of the company at the local shops will be the watchman. A like order effects the company's Springfield shops. The shops will probably reopen soon if no strike is called.

Every road in the country is issuing similar orders. It indicates that the order closing the shops is one of the methods the railroad heads will use to meet the strike. Evidently they figure that with workers in other lines also out of employment the pressure brought to bear on the trainmen will be all the greater.

FUNERALS

Ratekin

Funeral services for Mrs. Elizabeth Ratekin were held from the family residence, 420 West College avenue, Friday afternoon at 2:30 o'clock in charge of the Rev. George Nicholson. Two hymns were played on the Victrola. Preceding the sermon "Rock of Ages" was given and at the close "Face to Face." The flowers were cared for by Miss Emma Reynolds, Miss Helen Calky and Miss Elta Massey. Interment was in Jacksonville cemetery, the bearers being William Barr, J. T. Osborne, Richard Reynolds, Walter Rice, Joseph Shreve and M. R. Fitch.

Mrs. Ratekin was the daughter of Ebenezer and Melitah Palmer Barr and was born in Chautauque County New York Feb. 23, 1828. Her father was a native of Boston but prior to the war of 1812 he emigrated to Erie county, Pa., where he was married. He served in the army during the war of 1812. At the close of the war he worked as a carpenter in Erie. In 1838 he came to Illinois and settled in what is now Scott county.

The deceased was one of a family of ten children. She was twice married, her first husband being William Hardin Gowen to whom she was married in 1850. Mr. Gowen died in 1856. They were the parents of four children all of whom preceded her in death except one daughter Miss Sarah F. Gowen, who has spent all her life in Jacksonville. She has been a constant and loving companion of her mother during the many years that she has been an invalid. She was married the second time to William Ratekin in 1871 at the time he was mayor of Jacksonville. He afterward was superintendent of the waterworks and held other responsible positions.

Mrs. Ratekin was a member of the First Baptist church and was faithful in her religious worship. She was a woman who loved her home and was always happy when administering to those she loved. Her many splendid traits of character held many friendships during her long residence in the community.

Beside her daughter there also survive two sisters, Mrs. Abbie Boyer of Los Angeles, Cal., and Mrs. Mary J. Harney of Portland, Oregon.

Shelton.

Funeral services for Jasper Shelton were held Friday afternoon at the Woodson Christian church at 2 o'clock, with Dr. Miller in charge. Music was furnished by a quartet consisting of Mrs. J. T. Self, Mrs. John R. Vasey, Dr. R. R. Jones, and William Coultas, with Mrs. Gallagher at the piano. Flowers were cared for by Mrs. C. C. Self, and Miss Lula Castine. The bearers were T. M. Whitlock, George Newman, Jesse Butler, Patrick Crotty Stephan Anderson and Frank Smith. Burial was held in Ashbury cemetery.

PIANO-ORGAN FACTORY HERE A POSSIBILITY

Inventor and Associated Satisfied
With Building Offered—Company
Stock is to be Sold Elsewhere.

Mr. Earl G. Schwarz is the inventor of the Pianorgan, an invention which relates to the pipe organ and has for its primary object improved means whereby a pipe organ can be operated and controlled from an ordinary key board. Mr. Schwarz and his associates, Mr. Leto and Edwin L. Bersche of Highland, Illinois, have been in the city the past few days investigating the advantages of a factory location in Jacksonville.

Secretary H. Jay Rogers of the promotion committee has been in correspondence with these people for some time and yesterday the promotion committee met with the men and heard an explanation of their proposition. After the meeting M. R. Fitch, chairman of the committee, and the secretary showed the gentlemen around the city and several probable sites were looked at.

The second meeting of the committee was held in the Chamber of Commerce rooms, Friday morning and the situation regarding the location of this factory in Jacksonville is substantially as follows:

The inventor is preparing to incorporate for \$60,000 and expects to have completed the sale of stock and to be ready to manufacture by January 1st, 1917. This stock is to be marketed by the inventor wherever he chooses. As soon as enough stock is subscribed sufficient to begin operation, he is to come to Jacksonville and the Chamber of Commerce will provide a suitable building for the factory.

After a trip over Jacksonville and an investigation of conditions as regards railroad facilities, accessibility to market, water coal and power and living conditions, all of the men were enthusiastic over locating here. Messrs. Schwarz and Leto are returning to Highland, Illinois, today, and Mr. Bersche will remain in Jacksonville.

A plant such as is proposed will employ from forty to sixty men and a few girls the year around. Jacksonville is growing every day, building is going on in every part of town and a factory of this nature will be a valuable addition to the industrial family of the city.

Jacksonville friends of Edward Clifford have received notice of his retirement from the firm of Elston, Clifford & Co., brokers. Mr. Clifford has been a partner in this company since he retired from his duties as Chicago manager for Hornblower & Weeks. While no announcement has been made, it is very likely that he will continue in the business on his own account as he has been very successful and has built up a large clientele of investors. Mr. Clifford went to Chicago soon after graduating from the St. Louis law school and his advancement to a position of importance in the business world has been rapid.

W. T. Fisher of Murrayville precinct visited the city yesterday and called on his sister, Mrs. Isaac Crabtree of South Jacksonville. Mr. Fisher is a son of the late Joshua Fisher at one time a resident of this city where he was a contractor and builder for years and also held the office of policeman for a time.

The visitor from Murrayville said that on his place, some three miles from Murrayville is a vein of coal four and a half feet thick and of good quality. It is reached by an incline and is not very deep but being three miles from a railroad he finds it hard to work it though he could sell a large quantity locally but coal miners don't like to live so far from a railroad and so he gets very little fuel out of the mine.

WILL DISCUSS TOMATO CANNING FACTORY PLAN TODAY

Attention is again called to the meeting of farmers to be held at the court house this afternoon at 3 o'clock to discuss the proposition of securing the acreage of tomatoes for a proposed canning factory. The company which is seeking the location for a branch of their already extensive business, has made it obligatory upon the Chamber of Commerce committee not to make the name public. The reason is that if the fact were known generally that the company was seeking to establish a branch plant that committees from scores of cities would pursue them with propositions. Suffice it to say that the company which is proposing locating the branch factory here is one of the largest in the business. All conditions can be met by the business men of Jacksonville if the farmers will agree to provide the necessary acreage of tomatoes. Statistics from various localities show that tomatoes can be raised profitably and therefore the proposition has everything to recommend it.

STATE NEWS NOTES

Tractor Causes Damage Suit.—An unexpected result of sales of tractors to farmers has developed in St. Clair county. There Mrs. Matilda Schranz, widow of Peter Schranz has brought suit for \$10,000 against the International Harvester Company, claiming that proper instructions were not given her husband in the operation of the tractor he purchased from the company. The man was burned to death in a gasoline explosion while working with the tractor.

Newspaper Man Elopes.—August Semmelroth of Belleville, member of the firm which publishes two papers in that city, eloped with Miss Bertha Miller, also of Belleville. Their marriage was performed secretly at Springfield.

Seeks Heavy Damage from Alton.—Thomas J. Campbell has filed a suit for \$25,000 damages against the Chicago & Alton railroad company in a McLean county court. The complainant has been a brakeman in the employ of the company and alleges that he was injured while at work near Lincoln in Logan county. The man alleges that he was struck on the head by an arm attached to a telegraph pole and his injuries were such that he has been unable to perform any kind of work.

Plan for Lincoln Memorial Church.—The proposition to build a Lincoln Memorial Congregational church has aroused a great deal of enthusiasm in Springfield. A meeting was held last night at which the building plan was outlined by Rev. Frank Merrithew. Addresses were made by Judge Murray, Hugh S. Magill and others.

Want Farm Loan Bank at Springfield.—Springfield business men and bankers are co-operating in an effort to secure the establishment of one of the federal land banks in Springfield. These banks are provided for in the rural credits law. As already announced, members of the board created by the law will be in Springfield Sept. 21 to explain the workings of the law. It is hoped that at that time such facts and figures can be presented to the board as will result in locating one of the banks in the capital city.

CARNIVAL MAY BE FEATURE OF FALL FESTIVAL HERE

Meeting Friday Night At Chamber of Commerce, Make's Preliminary Plans—Tom Allen Shows Considered.

Tentative plans for the fall festival to be held here the week of October 9 were made Friday night at a well attended meeting in the Chamber of Commerce rooms. H. Jay Rodgers, the secretary, with members of a special committee, have for some time been working toward the fall festival week and in a few days will call a second meeting, when a representative of the Parker Carnival company of Abilene, Kan., will be present.

As was mentioned in a previous article, there will be a special feature for each day of the week. Exhibits of farm and dairy products will be on hand and the poultry association has promised to take part. For amusement of the visitors a good carnival attraction has been suggested and the committee is in touch with Tom Allen, manager of the company mentioned. In the Parker shows are included a number of electrical attractions and the outfit as a whole is of high class. A feature of especial note is an excellent military band of thirty pieces.

Permission for use of Central park and the main business streets adjoining has already been given by the city council and further plans for the conduct of the week will be reached at the second meeting.

MYERS BROTHERS.

"I Want to Sleep in Comfort"

SAID a man who came into this store the other day: "I want a bed that won't rattle and that is good looking, or my wife won't have it in the house—a bed that is moderate in price, because I can't afford the expensive kind. What can you show?"

We took him to our display of the new Simmons Steel Beds which have just arrived. We showed him how the foot and head rods are electrically welded—thus doing away with nuts and bolts, which are sure at some time to come loose and rattle.

We explained that these beds are made of tempered steel tubing—so that they are one-third lighter than the old style iron

beds. This means unmarred floors and a saving of rugs.

We told him just how the enamel was applied to the steel—four coats, baked separately—so that the bed was good for a lifetime of hard service.

And we explained how his wife might choose any color she liked, or one of the smart-looking good finishes now in vogue. Also, we mentioned the frictionless casters which insure great ease in moving.

Tonight that man is sleeping in comfort in a Simmons Bed. His wife says it is the best looking bed she has ever had in her home.

That is our idea of service to our patrons. May we not serve you?
